

AMPTRACK TECHNOLOGIES

Company Vision

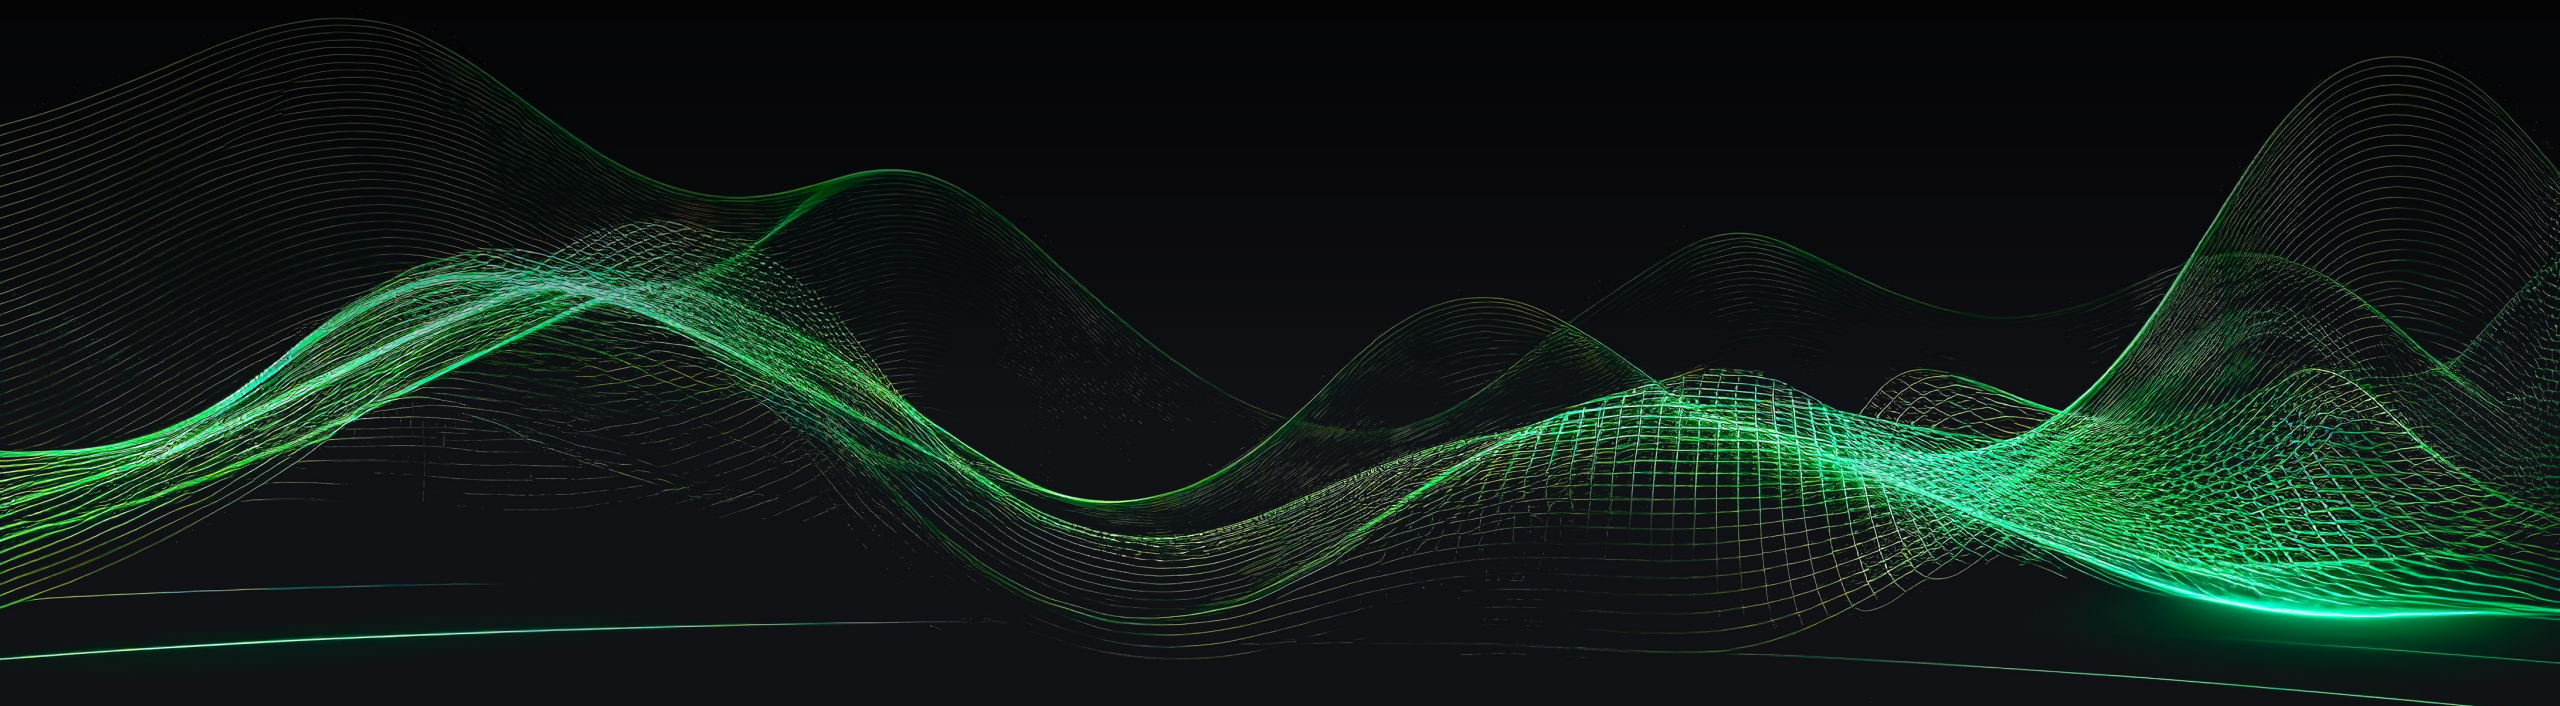

We are a cutting edge Music Tech company focused on developing tools to allow more people to make music on the web.

Innovation, quality and accessibility are the benchmarks which guide our goals, initiatives and products.

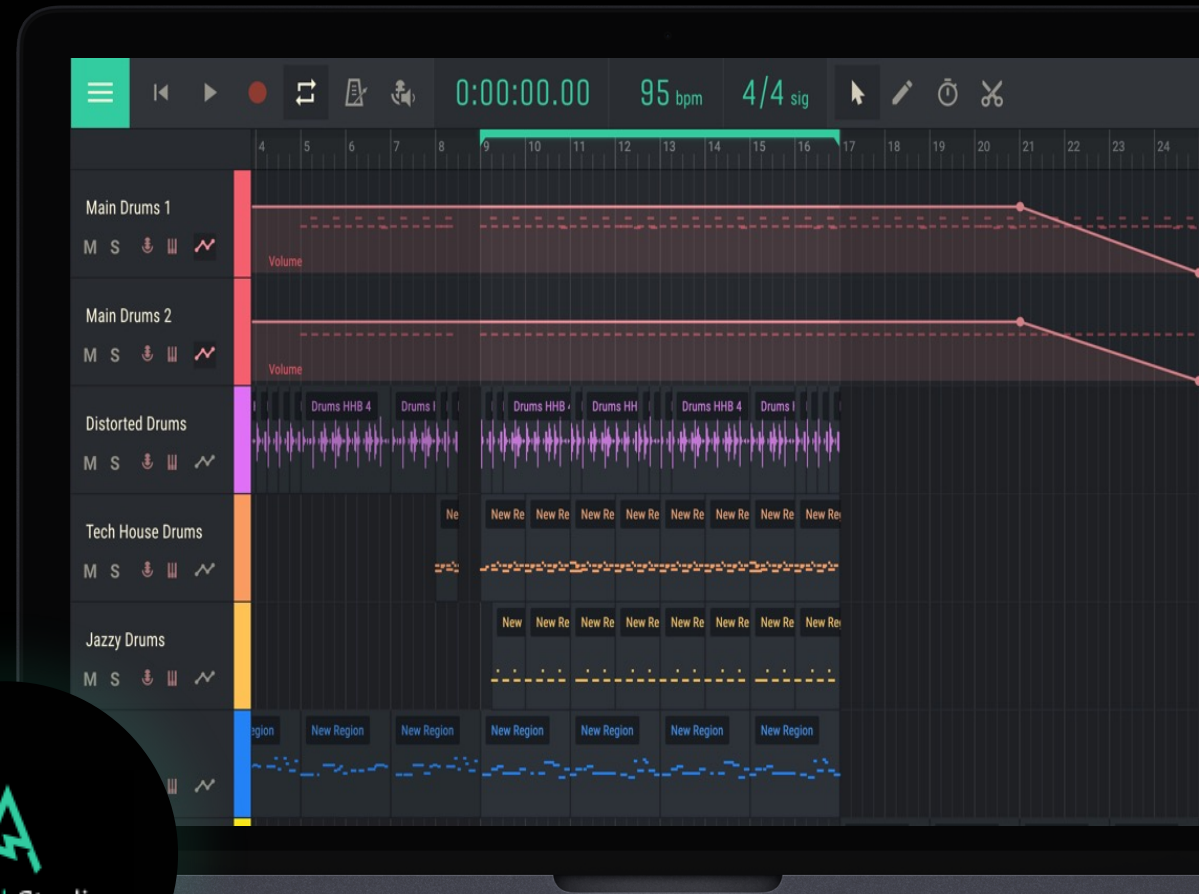

Amped Studio is an example of how these elements intersect to create an integrated platform for music creators.

Amped Studio: Most Advanced Online DAW

- ✓ Web based DAW (Digital Audio Workstation)
- ✓ Instant access to a online music studio
- ✓ Virtual Instruments & Effects
- ✓ Only online DAW accessing VSTs
- ✓ More AI assisted tools
- ✓ AI Track Separation tool Splitter
- ✓ API connection partnerships
- ✓ Video Chat

- ✓ Chord Creator

B2B Projects and Partnerships

Putting Expertise and Experience to Work

-  Developed Amped Studio in a Modular construction so elements can be reconstructed for use in other products
-  Built a web based Audio Editor for iHeart Radio, the biggest Radio Station conglomerate in the world
-  Cloned and licensed a version to NetEase Cloud Music, the second largest streaming service in China Amped Amped Studio China – which is maintained by Amtrack but is accessible on the NetEase platform
-  Licensed a custom version of Amped Studio for use on the Spume platform on the Polygon blockchain
-  Amped Studio was selected by Google to be in a pilot school project with it's Google Classroom connectivity and progressive web app structure as an online music education application

AmpedXMusic: Web3 Music Ecosystem

- ✓ **XRPL Grant winner:**
Built music NFT Marketplace
- ✓ **Arweave Blockchain winner:**
Implemented "Forever web3 Audio Storage"
- ✓ **XRPL Ecosystem in Beta:**
Marketplace, music streaming service and Studio with integration

AmpedX Music

The screenshot displays the AmpedX Music marketplace interface. At the top, there's a search bar and navigation links for 'MARKETPLACE' and 'FAQ'. Below this, the 'Popular tracks' section features four items: 'Рингтон - Рум-п...' (awdawd), 'Bus Driver.mp3 B2' (AmpedXMusic logo), 'Luv U Down (Sef...' (qwe), and 'muzyka-na-zvon...' (Nikifilini). The 'Popular albums' section shows 'Premium - AI FFF', 'Premium - AI awdawd', 'Andrey Potkas Artist', and 'My album My artist'. A modal window is open over the 'You are perfect' NFT, showing its details:

You are perfect ★ IN MARKETPLACE

Additional details for the 'You are perfect' NFT include: DIGITAL Blues, a yellow album cover with headphones, and pricing: @Andrey, A, \$ 0.45 USD, 60, 1 XRP, Bass.

Future Roadmap

01

Amped Studio: Develop more AI assistant tools and services and work with 3rd party AI developers to use their service in Amped Studio via API.

02

Tokenize the AmpedXMusic and create an innovative micro music ecosystem & community with a web3 music streaming service and NFT Marketplace.

03

More developed Collaborative features

04

Mobile version of Amped Studio optimized for phones with integration with Amped Studio and AmpedXMusic

Team

A team of committed and passionate developers with expertise in web audio, DSP and web3/ blockchain technologies.

The team is led by Bil Bryant, music tech veteran and pioneer in the commercial sampling industry producing and licensing sounds to Apple, Sony, Yamaha, Steinberg, Zoom, MOTU, Denon, Avid and Ableton.

Head developer Alex Shebolteav and project leader Gena Bondarev are key individuals with lots of skill, experience and music making knowledge.

Innovation and quality is in the DNA of everyone at Amprack. We work with agile and modern technologies striving to be a step ahead with vision and implementation.

THE FUTURE IS HERE
Help us shape it
